

LEMP TRIAL VERY SORDID.

Witnesses Come from the Underworld.

Brewer Figures as "Husband" of Demimonde Queen.

Paid Funeral Expenses and Tailor's Bill.

(BY DIRECT WIRE TO THE TIMES.)

ST. LOUIS, Feb. 10.—[Exclusive Dispatch.] A surprise for the defense today in the suit of Mrs. Lillian Handker Lemp, known as the "Lavender Lady," for divorce from William J. Lemp, Jr., was the testimony of Mrs. Sue E. Longley, a face beauty specialist, that she had twice treated Mrs. Lillian Handker Lemp, known as the queen of the St. Louis underworld, who died about six years ago, for rough skin on her face. Mrs. Longley also testified that she was called to treat Mrs. Morrison as "Mrs. Lemp," heard her clients' servants call her Mrs. Lemp, and identified William J. Lemp, Jr. in court as the man who entered the Morrison woman's residence when she was present. Mrs. Longley was there to treat Mrs. Morrison. She said she volunteered her evidence after reading yesterday's newspapers.

Mrs. Lemp, in her divorce petition, charged Lemp with paying Mrs. Morrison's funeral bill. He claims it was a charitable act for her relatives' request.

Jacob Rosenfeld, tailor, now of Chicago, testified he had seen Lemp after marriage in Dolly House's resort when Lemp paid him a \$50 bill against her from Dallas, Tex.

The deposition of Pearl Richie, who was brought, an invalid, from Chicago to testify, was read. She swore to seeing Lemp twice in another woman's house and also automobile with others.

The audience was still during this dire line exhibition. Mrs. Lemp was late in arriving and lunched in the Courthouse to avoid photographers.

"The mysterious woman," in violet hat and gown of latest style, occupied a front seat as usual. She was reported identified today as Molly Polly, whose house Lemp is supposed to have visited after marriage.

The greater part of this afternoon and tonight was occupied by the reading of Lemp's deposition, detailing his financial condition to guide the court regarding alimony and answering plaintiff's charges, which were generally denied.

In his six-hundred-page deposition, Lemp explained that his wife became known as the "Lavender Lady" through her preference for that color and her pronounced collar; that after their marriage she materially altered her style of dress at his request; that their first quarrel occurred in October, 1904, when he spoke to her about her style of dress; that he carried a revolver, but never pointed it at his wife; that he had not associated with certain women after his marriage.

Mrs. Lemp's attorneys announced they had several more witnesses to examine, including her mother, Mr. A. H. Handlan, and several depositions. Lemp is expected to take the witness stand tomorrow afternoon when they conclude.

Because of spreading temperance legislation there is said to be difficulty in procuring Lemp's wealth.

He stated in his deposition that he owns 370 shares of stock in the William J. Lemp & Co. company, which he is president. He is paid a salary as president of \$12,000 a year and in the deposition declares his annual income, including the salary, is \$32,000 a year. In addition to this he is allowed \$5000 a year to spend in various. Lemp's deposition consists of 304 typewritten pages and when court adjourned tonight only 182 pages had been read.

UP AND DOWN THE VALLEY.

PROSPERITY IN RELIGION.

Year Has Been in Marked Contrast to Financial Conditions, According to Henry Cope.

(ASSOCIATED PRESS DAY REPORT.)

CHICAGO, Feb. 10.—Henry Cope, general secretary of the Religious Education Association, presented his annual report in today's session of the convention. In his report he says:

"The year of 1908 will doubtless be remembered in the history of finance as the year of great depression and has been in the history of the Religious Education Association the year of its largest progress and its widest expansion. The association has published more material, reached more people through our literature and meetings, received more money and witnessed more general evidence of its increasing influence, than in any preceding year."

The principal activities of the association during the year 1908 are reviewed. The indebtedness, which for so many years threatened its usefulness, is practically all paid off, he declares.

"More important than all statistics," Mr. Cope says, "is the fact that we have expressed in figures, that pastors and leaders of all denominations, university and college presidents and professors, leaders in public education, editors, artists, Sunday-school teachers, Young Men's Christian Association secretaries and workers, lecturers in theological seminaries, parents, school teachers and earnest young men and women, have been brought together and have unitedly studied and endeavored to find some solution of the problem of religious and moral training."

STEPHENSON FIGHT GROWS.

Senator Is Five Votes Short and Has Engaged Spokesman to Represent Him.

(BY DIRECT WIRE TO THE TIMES.)

MADISON (Wis.) Feb. 10.—[Exclusive Dispatch.] Four features of the Senatorial fight in the Wisconsin Legislature today were the failure of Stephenson to break the deadlock, more delay in filing his campaign expenses statement, appointment of Senate members of the Senatorial investigation committee, and the report that ex-Senator John C. Spooner had been retained to represent Stephenson if the contest is carried to the United States Senate.

On the ninth joint ballot, Stephenson received 60 votes, five less than enough to elect. Four of his supporters were absent. E. A. Edmunds, Stephenson's manager, took the expense statement to Milwaukee last night for correction, but is said to have found it all right.

MILLIONAIRE BREWER FIGHTING WIFE'S SUIT

city civil service employees and the equalizing of salaries has developed far enough to convince the merit board that the service has many "duplicate employments."

The Health Department has a plumbing inspector, the Building Department has another, the Water Bureau has a third, and all inspect the same jobs. The fire department has men who inspect fire escapes, and so has the building department.

SMOKEY CHICAGO ARTISTIC.

(ASSOCIATED PRESS DAY REPORT.)

CHICAGO, Feb. 10.—Chicago's smoke may be disagreeable to its residents and various organizations, including women's clubs, may agitate against this nuisance, but now it appears the word nuisance is a misnomer. In reality, the smoke lends a beautiful, artistic canopy to the city and painters like it. They even come from Europe to study the effect in shading.

Ralph Clarkson, in an address last night on municipal art, said the West "is the birthplace of a new appreciation of art in America. The towns of this country are undoubtedly the ugliest in the world. The local women, they will improve. One of the municipal endeavors should be to make Chicago attractive, so people would spend money here. To this end the artists would not sacrifice the minimum, but in itself makes for one of the attractions of the city. Artists from abroad have spoken of the beautiful effects it makes on the Chicago River. It holds Chicago together artistically and even brings the sign boards into one."

CURTAINS OPPOSE HEALTH.

(ASSOCIATED PRESS DAY REPORT.)

CHICAGO, Feb. 10.—Health Commissioner Evans, in his effort to reduce epidemic diseases to a minimum, has launched a crusade against lace curtains. He says: "Bad air is the cause of considerable of Chicago's ill-health, and lace curtains, peculiar as they may seem, play their part in producing the bad air. The worst woman who placed lace curtains on her windows did so in order to keep out the dirt and permit only pure air to enter the home. Other women who followed her custom, however, thought of the beauty of the curtains and purchased better and better curtains, until today they are afraid to open their windows to let in the air for fear the dust will injure them."

RESTRIC 5-CENT THEATERS.

(ASSOCIATED PRESS DAY REPORT.)

CHICAGO, Feb. 10.—Separate buildings, one-story in height, and of special construction, for all new 5-cent theaters is the stringent requirement of an ordinance now in course of preparation. These structures will have two front and two rear exits, and where they cater to children, they will have to have sufficient attendants to get the youngsters out in case of fire or panic.

BUCKLEY TOOK CONCERN.

Painting Found in Rubbish Heap
Believed to Be Old Master.

(BY DIRECT WIRE TO THE TIMES.)
SACRAMENTO, Feb. 10.—[Exclusive Dispatch.]—Mon-
signor Capel and Rev. C. E.
Oehler have interested them-
selves in determining the origin
of the mysterious Madonna
painting found by Mrs. C.
Schneider among the rubbish
in a shed at Guthrie station re-
cently, while she was cleaning
up the premises.

She was about to destroy it,
when her little son begged for
the "pretty picture" and it was
given him. Later it was
more closely examined and
when the grime was removed
it was seen to be a fine piece
of work, but its great value
never dawned upon its possessor.

It came reached artists here,
who examined it and brought
experts to look at it. There is
no autograph upon the canvas,
but experts say it looks
like a Raphael or a Titian. It
is believed to be the work of
one of the old masters.

Copies of all known master-
pieces of this subject have
been compared with this pic-
ture, but it is like none of
them, and is therefore not a
copy.

den and unexpected rise in the price
of Western Pacific common stock has in-
creased the assets of the depositors of
the defunct California Safe Deposit
and Trust Company nearly \$1,000,000.

The wrecked bank controlled 45,000
shares of the stock, and of this
amount 25,000 shares are owned
right by the bank, while 17,000 are
held as collateral for heavy loans.

Receiver E. J. Le Breton of the bank
has been besieged with offers to pur-
chase the stock at the prevailing
prices, but he refuses to sell, in the
belief that it will reach par.

NEXT WAR ON WINGS.
Hudson Maxim, Inventor and Scientist,
Urges Importance of Aerial
Fleet.

(ASSOCIATED PRESS DAY REPORT.)
NEW YORK, Feb. 10.—Hudson Maxim,
inventor and scientist, and relative
of Hiram Percy Maxim, who has
just perfected a device for making a
gun noiseless, pictured the war of the
future, last night, before several hun-
dred members of the Automobile Club
of America. He said:

"Napoleon's dictum that God fights
on the side of the strongest artillery
will no longer hold true. In the very
next war between civilized countries,
the side that has the strongest flying
machines and the most of them."

"Although flying machines will not
be able to carry any artillery yet an
army of raiders with the raiders' out-
fit, will be able to reconnoiter and
slight on defensive positions, destroy
bridges, rip up railroads, cut com-
munications, burn towns, blow up
magazines, stores and powder mills. In
future wars these visitations may
come any night to any inland town,
and no home would be safe."

The speaker deplored the failure of
Congress to appropriate \$500,000 for
aeronautical experiments, and said one
thing now most needed is a broader
public knowledge of aeronautics, es-
pecially as applied to national de-
fense.

FINED, IMPRISONED, MARRIED.
Three Forms of Punishment Visited
on South Carolina Bigamist at
Helena.

(ASSOCIATED PRESS NIGHT REPORT.)
HELENA (Mont.), Feb. 10.—Thomas
Hamby, a former South Carolinian,
convicted in the Federal Court here
on a bigamy charge, was not only
fined \$100 today and sent to jail for six
months, but also sentenced to marry an
Indian woman.

Hamby's first wife, learning of his
marriage to pretty Mary Labrecht,
a Blackfoot maiden, secured his
indictment and a legal separation
for herself. Because of the first mar-
riage, the second was declared void.
Judge Hunt not only ordered the
prisoner to be married, but instructed
the marshal to see that it was car-
ried out immediately, and a justice
of the peace reunited the couple. Ham-
by made no protest.

LOCAL TRAVELERS.
Los Angeles People Who Are Re-
gistered at Hotels in Other
Cities.

ENGINE EXPLOSION FATAL.
BELLINGHAM, Feb. 10.—The locomotive drawing the southbound Great Northern "Ow" train, due in Seattle early this morning, blew up today about a mile and a half south of Mukilteo, killing the fireman and mortally injuring the engineer. No passengers were injured. The train was wrecked and the baggage and express cars reduced to matchwood.

THE DEAD:
JOHN BLOOM, fireman.
JOHN LENAHEAN, engineer.
The body of Bloom has not been found. The train was going about ten miles an hour when the accident occurred. The engineer was buried fifty feet out into the Sound, but struggled into shallow water and from there was rescued by the conductor and passenger, dying later.

Bad Breath and Sour Stomach
Stopped At Once With Pure Willow Charcoal, the Greatest Gas Absorber Known

Stuart's Charcoal Lozenges
A Little charcoal lozenge dissolved on the tongue after meals will also keep the stomach fresh and clean. Charcoal is justly called the scrubbing brush for the stomach. The old monks of medieval times cured bad cases of stomach trouble, cast out devils from the system of man by feeding such a mass charcoal.

Scientific men of today believe in the great strength of charcoal for the cure of human ills. Too much of it does not harm one. The system craves it just like an animal needs and craves salt ever so often. Charcoal goes into the stomach gently and is well come; it settles down through the action of the stomach, and filters through all the food, absorbing gas, aiding digestion, and giving tone to the juices, so that when the food goes into the intestines, and there meets other digestive fluids, the charcoal holds the impurities and thus keeps them from the blood.

Stuart's Charcoal Lozenges are made from pure willow. They are prepared fragrant by the use of honey and sweetened so they please the taste and are easily dissolved.

They have an enormous sale, thus stamping them with the approval of the public. Every druggist sells them, 25 cents per box. Go to your druggist today and buy a box; then after your next meal take two or three of them and judge for yourself of their merit.

Several taken at bed time will prove to you in the morning that they have been at work all night, for your bad breath will not be so bad after all.

Send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.

Bad Breath and Sour Stomach
Stopped At Once With Pure Willow Charcoal, the Greatest Gas Absorber Known

Stuart's Charcoal Lozenges
A Little charcoal lozenge dissolved on the tongue after meals will also keep the stomach fresh and clean. Charcoal is justly called the scrubbing brush for the stomach. The old monks of medieval times cured bad cases of stomach trouble, cast out devils from the system of man by feeding such a mass charcoal.

Scientific men of today believe in the great strength of charcoal for the cure of human ills. Too much of it does not harm one. The system craves it just like an animal needs and craves salt ever so often. Charcoal goes into the stomach gently and is well come; it settles down through the action of the stomach, and filters through all the food, absorbing gas, aiding digestion, and giving tone to the juices, so that when the food goes into the intestines, and there meets other digestive fluids, the charcoal holds the impurities and thus keeps them from the blood.

Sensational Suit Purchase From Frazen & Oppenheim Stock
\$25 to \$30 Values \$15.00
Values to \$32.50 at \$17.50

Here is the most startling suit news of the year: Frazen & Oppenheim operated seven stores in New York and carried branch stores in Chicago and Philadelphia. Exclusive dealers in cloaks, shoes and women's wearing apparel. Their liabilities are placed at \$800,000. We secured a thousand women's suits as the result of this failure. They were all ready to be shipped when the failure was announced. Our Mr. Middleton was in the market on the lookout for snags; they offered him the entire shipment intact at a startling price reduction; the garments were rushed forward by express to be here in time for this most wonderful of sales. Positively no such suit values have ever been featured in the beginning of the season. Just imagine, all new spring styles, and right at a time when women's suits are hard to obtain even at the highest prices. It is a stroke of good luck that no woman can afford to overlook. Come bright and early to share in this—

\$15 Women's \$25 to \$30 New Spring Suits
Suits that were intended for Frazen & Oppenheim's \$25 to \$30 lines, bought under conditions that enable us to name the ridiculous price of \$15. All wool panamas in hairline stripes, lined with fancy taffeta; cutaway and button over style.

Also serge and novelty madras suits in the new wide stripe effect.

Women's Spring Suits Values to \$32.50 \$17.50
Beautiful wool Rajah suits in the new spring styles; choice of blue, brown, gray and tan, two-tone serges in just the shades that fashion demands; suits that are selling in the Eastern cities at \$32.50. These were intended for Frazen & Oppenheim—\$17.50.

Such opportunities come only by fortunate circumstances.

10 Lbs. Granulated Sugar In Connection With \$3.00 Grocery Order 50c
That's the first price from today's great grocery list. More and more people are learning to know the economy possibilities that prevail here. This is fine granulated sugar. Phone if you can't come.

VICTORY GOES TO WALLABIES.

Australian Rugby Fifteen Beats Stanford.

Cardinal Players Show up Strong in Attack.

Clever Dodging and Tricks Win for Visitors.

(BY DIRECT WIRE TO THE TIMES.)

STANFORD UNIVERSITY, Feb. 10.—(Exclusive Dispatch.) In a match played upon a field so wet that pools of water stood over the entire surface, with a steady downpour of rain during the greater part of the time, the Stanford varsity rugby team, holders of the Coast of the International championship, were defeated by the Wallabies, champions of Australia, by the score of 13 to 2.

But even under the adverse weather conditions the match was a splendid exhibition of rugby and the enthusiasm of the 1500 spectators who witnessed the contest was kept at a high pitch in spite of the drizzling rain.

With the field so slippery it was impossible for either team to play up to the usual form sometimes the contest more resembled a soccer match than a rugby game and it proved very difficult to inaugurate passing rushes with the slippery ball on ground where speed was an impossibility.

The unfavorable conditions could not conceal the real class of the Australian players, who gave occasional flashes of their ability and cleverness which indicated that they might have been done upon good ground with a dry ball.

The Cardinal players put up a good fight and forced the Australians to do their best in order to make a gain. The game was the hardest fought match ever witnessed here and during the second half the Stanford team seemed to have the edge of the fight, but always the splendid defensive kicking of Carmichael, the visiting fullback, averted a try.

In dribbling rushes the Stanford pack seemed almost invincible and had a clear advantage over their opponents, twice forcing the Wallabies to touch back to prevent a score and threatening the goal continually during the second half. With the eight-man scrum the visitors had an advantage in the ruck and wore the Stanford forwards out by forcing them to take the punishment entailed upon falling on the ball.

The Stanford players were the better tacticians, but the visitors more than made up the advantage by clever dodging and trick play.

J. Mann, manager of the Wallabies, was much pleased with the exhibition, stating that it was one of the best played on the entire coast. He expressed his belief that if the Stanford practice in fact it could play a style of ball that would surprise the enthusiasts of Sydney and the Australian centers.

Stanford's only try was made in the first half by Miller after a long run by Holman, while in this period the visitors made two tries as the result of clever passing rushes, both being converted by Wood. The Cardinal started in with a rush in the second half and for a time played the Australians off their feet, but a clever trick play and a passing rush near the goal netted the Wallaby aggression another three points.

The line-up: Stanford—Terry, McGregor, Doyle, Crawford, Minton, Thorpe, Chedra, forwards; Miller, wing forward; Scott, half; Mitchell, Ganser, five; Roth, center; Holman, Cook, wings; F. Brown, full.

Wallabies—Richards, Gavin, Row, Middleton, McCue, Griffin, Barnett, Hammond, forwards; McKevatt, half; McCabe, five; Dix, Hickey, Wood, Russell, three-quarters; Carmichael, full.

Referee, H. E. Elliott.

Halves, 40 minutes.

DUCK HUNTERS AWAKE.

Grand Discharge Will Take Place This Week, Which Is to Be Final One of Season.

The duck hunters throughout the state are preparing for grand bombardments of the birds this week, and particularly on Saturday and Sunday, for the open season for ducks will end next Monday night. The birds have been very scarce for the last two weeks, owing to the fact that the recent heavy rains have made many pools of water all over the country and filled many old holes and marshes, thus providing feeding places for the birds and keeping them away from the club preserves.

Small, scattering bunches of hunters have visited a few of the clubs this week, but have reported only ordinary luck. Seven guns were on the Carrington yesterday, and the only limit man was Dr. Graves. The latter was successful in shooting a pair of mallards, and the new captain has now won No. 2 on the "varity" for two years, competing twice against Stanford and once against Washington. He has been a member of his class crew ever since entering college. Ball was a member of the basketball team of the Los Angeles Turnverein, which made the trip to the St. Louis Exposition. He is a senior in the College of Mining, and belongs to the "Phi Kappa Sigma" fraternity.

Jaffe Defeats Marshall.
NEW YORK, Feb. 10.—(Exclusive Dispatch.) Charles Jaffe won the seventh game of the series against Frank Marshall after forty-five moves. Jaffe opened with a queen's pawn opening, and although Jaffe had slightly the better of it in the opening and part of the middle game, he did not gain any material advantage, and it was thought the contest would result in a draw. At his thirty-seventh move, however, Jaffe won a pawn and later on succeeded in undoubling a pawn on the queen's knight's file. On the forty-fifth move Marshall blundered. He lost rook, and then he resigned the game. The score—Jaffe is Marshall, 4; Jaffe, 2.

SAYS MURPHY IS "FOUR-FLUSHING."

(BY DIRECT WIRE TO THE TIMES.)

CINCINNATI, Feb. 10.—(Exclusive Dispatch.) "President" Charles W. Murphy was four-flushing when he made the announcement that he was willing to pay \$10,000 to his players for winning the championship last fall," declared President Ben Johnson of the American League. Johnson said that the Cubs' president had drawn him into the controversy. He said that he had had an opportunity of buying the Chicago club before Murphy purchased it, and consequently was not at all envious of Murphy's success.

"Murphy knew his offer was a violation of the rules of the commission," Johnson continued, "and felt sure that his bluff would not be called, and, furthermore, to make doubly certain, he requested the commission to turn down the players if they appealed to the commission for the money."

Johnson was called here by the illness of his mother, but her condition has improved considerably, and he left tonight for Chicago.

BASKETBALL.

EASY FOR U.S.C. AT OCCIDENTAL.

(BY DIRECT WIRE TO THE TIMES.)

UNIVERSITY BOYS OUTCLASS THEIR OPPONENTS.

Hard Playing Causes Many Fouls and Coloune, the Methodist Center, Converts Many Free Throws Into Scores—Glendale Outclasses Presbyterian Preps.

(BY DIRECT WIRE TO THE TIMES.)

U.S.C. 33; Occidental College, 15.

The Occidental College basketball team was outclassed by the U.S.C. five in their last conference game at Occidental yesterday afternoon, the superior class and weight of the visitors giving them the upper hand throughout the game.

The Highlanders made a plucky fight against the skillful U.S.C. team, but the failure of the Occidental players to shoot the ball was their undoing.

Coloune, the Methodist center, converted many free throws into scores, and Glendale outclasses Presbyterian Preps.

Glendale 20; Presbyterian Preps, 10.

The Glendale basketball team was victorious over the Presbyterian Preps yesterday afternoon, the superior class and weight of the visitors giving them the upper hand throughout the game.

SOCIETY VIEWS CHICAGO SHOW.

Snow and Sleet Fails to Worry Eager Crowds.

Toy Tonneau and Town Car Are Attraction.

This Year's Exhibit Outclasses All Others.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Feb. 10.—(Exclusive Dispatch.) Clad in the height of fashion, Chicago's elite flocked to the automobile show this evening, despite the blizzard, to observe the social season especially arranged by Manager Samuel A. Miles. Double admission fees, another feature of the day, failed to curb the eagerness of the general public, however, and the aristocratic rubbed elbows with the middle class in one monster gathering that doubled the proportions of the crowd assembled on the same day at the 1927 show.

The toy-tonneau and the handsomely equipped town car appealed to the social contingent, and nearly every one of the ninety-two makers showing his product within the immense exposition quarters had something new and novel to offer along these lines.

The toy-tonneau, an innovation at the last show, has now come to be regarded as a real feature in the automobile industry, and its growing popularity is attested by the fact that in all the American plants making such a complete and new body, the appearance, fitted with the latest in motor and chassis, is being built for the coming season.

NEW ASSOCIATION.

Steps were taken today at a meeting of prominent Chicago motorists in the Chicago Automobile Club to revive the efficiency of the Illinois State Automobile Association by the formation of a complete and new body, the organization has taken no active part in motor affairs during the last two years.

"Illinois is doing nothing in the way of preparing to improve the automobile industry, and its growing popularity is attested by the fact that in all the American plants making such a complete and new body, the appearance, fitted with the latest in motor and chassis, is being built for the coming season.

THURSDAY—MORNING, FEBRUARY 11, 1909.

MOUNTAIN AND MOUSE.

GRAND JURY FINDS NOTHING STARTLING.

No Basis for Criticism of the Mayor's Business Transactions.

No Evidence of Grafting Among the Officials of the City, and no Indictments or Accusations as Result of the Long Investigation of Moral Conditions in Los Angeles—Minority Statement Labels Says Mayor.

The grand jury finds: No indictments nor accusations as a result of investigation of moral conditions in Los Angeles.

No evidence of grafting among the city officials. So states explicitly. That instead of suppressing the "red light district" the police illegally attempted to regulate it, but now have it closed.

That the liquor ordinances were openly violated with the knowledge of the Mayor and part of the Police Commission—and by previous administrations as well.

No evidence that the Mayor or Police Commission were aware of any special effort to sell oil-company stock to saloon-keepers and others in like positions.

That the sugar companies in which the Mayor is interested are ordinary business ventures, and his associates such as would naturally be with a man in business, his friends and associates.

That the County Clerk and Public Administrator have had moneys on hand which should have been deposited with the County Treasurer.

That there is room for criticism in road-work demands and for work at the County Farm, where there is a lack of system.

That the last Board of Supervisors was too free in the expenditure of public money at the County Farm and in county offices at Spring and Franklin streets.

That the City Jail is all right in so far as it goes, but a new one is needed.

That the Receiving Hospital is simply a disgrace to the city.

That the County Jail is most excellent, and that most of the jails throughout the county are in good condition.

That the management of the Whittier State School is good.

That there is gross overcrowding of the city high school buildings.

That the police have done good work in improving Chinatown conditions.

Six members of the grand jury, dissenting from the report, made an unofficial statement yesterday afternoon in which they pitched into the Mayor's private morals and charged him with lewd performances. This statement was not received nor filed by the court and is not an official document. The grand jury rejected it.

This personal statement of Messrs. Wesley Clark, J. J. Andrews, Charles H. J. Bliss, C. W. Damerel, W. H. Richards and H. C. Bichowski, alleges that the Mayor frolicked with scantily dressed women in a house of ill fame; that Chief of Police Kern frequented a gambling joint and gambled therein; that the Mayor's secretary got drunk in a saloon after closing time and borrowed money of the proprietor; and that the Mayor promoted a deal in "red light" property. The signed statement is printed in full by The Times as a part of the history of this bitter political campaign—with due warning to its readers that the grand jury found these charges not substantiated and declined to incorporate them in its report, and that the statement has no other standing than that of a personal attack on the Mayor and other officials involved.

The presiding judge instructed the six signers that they had no standing in court and if they should give out the statement they would do so on their own responsibility and at their own risk. Mayor Harper declares he will prosecute them for criminal libel.

There was no ceremoniousness in the delivery of the report of the grand jury to the presiding judge, Hon. W. P. James, yesterday morning at 11:30 o'clock. With the exceptions of Preston F. Cogswell of El Monte, who is at Sacramento as a member of the Assembly, and A. K. Crawford, who has been ill at Glendale for three weeks, all the grand jurors were on hand.

Judge James was in the midst of a civil suit involving a building partnership when Maj. E. W. Jones, the foreman, followed by his colleagues, appeared. There were but few persons in the courtroom—only the witnesses in the pending case, and a group of reporters waiting for the document so anticipated.

When the report was handed to Judge James, he began to look it over and evidently, cursorily at least, rapidly digested some of its features. Maj. Jones informed the court there would be no other report, but that the jury would be in session for a short time during the afternoon preparing demands. The court made an order to that effect.

Then came the thanks of the court, Judge James saying: "I congratulate you, gentlemen, upon the completion of your labors. This jury has been in session longer than a similar body in this county for years. I say this not in a spirit of criticism, for you have had important matters to discuss and determine. You have done the work faithfully and well, and at a great personal sacrifice on the part of many of the panel. You have the thanks

power and authority to look into such matters, it was responsible for the use of such power, and the result could not but be beneficial to the commonwealth if the investigation was thorough.

If the charges which were publicly made were unfounded the establishment of the good name of the city would be an end worthy of attainment. If, on the contrary, there was corruption among the officials of the city, their apprehension and exposure would likewise be beneficial to the commonwealth. Either end was worth the labor, time and expense. It has been within our power to make one or more of three findings—first, an indictment; second, an accusation; third, a report.

NO EVIDENCE OF GRAFTING.

First—If we found so-called "grafting," which is a term for bribery (that is, the acceptance by an official of any money or other valuable consideration for privileges, be they legal or illegal), or any other felony, we could return an indictment.

Second—If we found that no felony had been committed, but that the official had failed to perform his duty as an officer, an accusation could be returned against him requiring his removal from office, under section 33 of the Penal Code.

Third—If we failed to find grounds for indictment or accusation, we could report to the court the facts as we found them. We have returned no indictment. From which it can fairly be concluded that we have failed to find evidence that any public official or other has been guilty of a felony. We have failed to find any evidence of so-called "grafting" among the city officials of Los Angeles.

Second—We found that there has existed during the present administration, and for many years back, in this city, a condition as to the houses of prostitution, which, in the strict view of the law, could have resulted in an accusation against the members of the police department under section 754 of the Penal Code.

By reason of the fact that we found no such accusation, we will state to the court the facts as we found them, as follows:

Section 315 of the Penal Code, which has been a law in this state since 1872, forbids houses of prostitution making their existence and the renting of property for that purpose a misdemeanor. Under this law we can not take action for the commission of a misdemeanor, but the law also requires police officers to enforce this as other penal laws, and a failure to do so can properly be charged in an accusation against the officer and he be removed from office. This is the State law.

The police officers are chargeable with its enforcement under the law. We find the Mayor and some members of the Police Commission have made frequent visits to houses of prostitution throughout the city, inspecting their condition (and on one occasion which appears to the grand jury to have been more in the nature of an orgy than of an inspection) we find that such action on the part of the Mayor and Police Commission is reprehensible and outside of their official jurisdiction, and the police force cannot escape responsibility for failure to enforce a State law by reason of any order or lack of order from the Mayor or Police Commission.

"RED-LIGHT DISTRICT."

We found in regard to the so-called "red-light district" as follows: When this grand jury was called there were about 100 houses of prostitution in Los Angeles city, and about 330 known inmates. These women were all under the control of the police department.

To a large extent, we forbade their occupying certain parts of the city, and at various times in the past two years ordered them to move from certain parts of the city. The police required the proprietress of each house to report in writing the arrival and departure of every woman, so that the location of each one was known to the police at all times. The police department kept a register containing these facts. They required them to submit to medical examination, and once a week the policemen on the beat called and inspected a certificate furnished by a physician.

A number of physicians issued these certificates, which examinations cost the women \$1 each. There appears to have been no effort to require any particular physician's certificate on the part of the police. There were certain other regulations enforced by the police.

The ability of the police to control this uncertain and unwholesome element lay in the fact that they were simply visiting the law, section 215, and the law against vagrancy, and should have been prosecuted at will by the police, who forbore doing so on long these regulations were complied with.

This fact also rendered the police liable to accusations by the time this section 754 of the Penal Code, for failure to enforce the law openly violated.

After spending three months inquiring into this subject, we are of the opinion that this law can and should be enforced, which effort, we believe, will be ably assisted by the District Attorney, who has taken over the City Attorney during this investigation.

With the facts as to open neglect to enforce this law by the authorities, and in its stead to attempt to enforce a set of regulations (which may or may not be an improvement on the

(Continued on Eighth Page.)

CRIMINAL LIBEL, SAYS MAYOR.

Declares He Will Prosecute Six Men Who Signed Statement Charging Him With Indecencies.

Mayor Harper last night issued the following statement:

In answer to request of The Times for a statement regarding the private communication signed by Wesley Clark, E. C. Bichowski, J. J. Andrews, Charles H. Bliss, G. S. Richards and C. W. Damerel, members of the late grand jury, (which consisted of nineteen jurors,) and their attempt to give semblance of official character to such report, which, I am informed, was presented, privately to Presiding Judge James of the Superior Court in his chambers, but was not officially received or filed by him—I will say that it is an obvious attempt on the part of these men to go out of their way to blacken my character as an aid to the recallers, in which it is also evident the balance of the self-respecting members of the grand jury refused to concur.

The dastardly charges that these six men make in their private statement against my personal character I denounce as untrue.

I am also informed that this document, signed by the above named parties and published, constitutes a criminal libel, and I propose to invoke the aid of the law respecting criminal libel, when a full opportunity will be furnished said parties to justify themselves; and failing so to do, to take the consequences. A. C. HARPER.

CITY AND COUNTRY.

On All News Stands, 15 CENTS.

GOOD WORKERS HEAD THE BOOSTERS' CLUB.

Organization Started to Offset Mischiefs of Knockers and to Spread the Repute of Los Angeles as a Fine City to Live and Invest in.

Organization Started to Offset Mischiefs of Knockers and to Spread the Repute of Los Angeles as a Fine City to Live and Invest in.

"GOOD MORNING! Boost!" A shake of the hand. These the password and grip of the "Boosters' Club of Los Angeles," which was formally organized yesterday.

This is a non-political, non-sectarian

Angeleno—yes, there are a few—who are not ready to join the Boosters' Club. The Times has printed columns and columns of interviews with men in all walks of life who heartily favor the idea of a Boosters' Club. Following are other expressions obtained yesterday:

W. E. Bush, president Automobile Dealers' Association of Southern California: Finest thing I've ever heard of. A booster? Well, I guess I'm in on that. Sounds good to me. I'm with the boosters, and I'm going to keep on smiling right along if things continue to please me as they have in the past. I'm in line with the boosters against the knockers, and ready to help roll the prosperity automobile along a little faster. Put it down that I've got no use for these fellows who are trying to tell us our city is going to the eternal bow-wows. Can't afford to listen to the somebodies. I'm too busy helping to boost.

Gen. M. H. Sherman, Los Angeles-Pacific Railway Company: This boosting business sounds good to me. We've got the best city on the globe, so why need any of us be pessimistic? Let's about with the boosters who always make things go. They are the fellows who make things hum. There is no room for knockers here. We are too busy going ahead to listen to the man with a tale of woe. The fault-finders are not going to help matters by telling us things are going from bad to worse. Things look pretty good to me. Los Angeles is my city, and I'm going to boost for her as long as I live. I've got no use for the charter members of that club. Oliver Lester, real estate: I'm in for a campaign of boosting, rather than for one of back-biting.

C. D. F. Peabody, grocer: It is a poor bird that befools its own nest. I want to join the Boosters' Club.

Walter J. Ballard, electric companies: Boost, say I. We must not let anybody but boosters shape the destiny of Los Angeles.

W. H. Lusart, grocer: Out my way the people are all for boosting and will all wear the Boosters' Club button.

Arthur Letts, proprietor Broadway Department store: I've been boosting for Los Angeles for fifteen years, right in the thick of things. Los Angeles is my city, and I can't see anything but increased prosperity ahead. Count me a booster who expects to keep boosting for fifty years more.

W. H. Eaton, Electric Construction Company: I want to be a charter member of that Boosters' Club. I'm no pessimist. I don't want to be associated with the knockers. I'm too busy helping to boost. When a man comes to me with a "pessimist" I tell him to trot right along. He gets no sympathy from me because I believe in boosting. This city is my home, and I intend to stay here. I don't want to do anything that will injure her fair name. I am proud of Los Angeles, and of the record she has made. Things are not all wrong, and even if they were some of the plans recently sprung will not right them.

E. J. Whitmore, Alexandria Hotel: Count me one of the boosters. I'll do all I can to keep this boost spirit alive. I like the idea immensely. We as a city are more prosperous now than we ever were before. This is just the time to get in and boost with a will. Things look particularly bright to me, and they are going to look brighter. Los Angeles is my city, and I think there is no place on earth that can best her.

William R. Russ, automobiles: I'm going to be one of the chief boosters.

(Continued on Sixth Page.)

Officers of the Boosters' Club of Los Angeles.

CAREER OF IZZY AS A

[illegible]

"I said Jake in a low whisper," said the man, "and he said, 'I said lazy in a very blasphemous way.' 'It should be a necessity if I said de Mayor, I edit him.' 'Maybe you got me a choba,' suggested Jake, who is becoming disenchanted about being a recall Mayor. I crumpled him with a look. 'I'm not a brother mit choba,' he said indignantly. 'I edit the Mayor.'"

MUSIC AND THE STAGE.
MR. MILLER, Feb. 10.—[Exclusive Dis-
tributed] Henry Miller, who is appear-
ing in "The Great Divide" here, will
be in "The Faith Healer" at the
theater at the Century Theater, St.
The new play is written by
the author of "The Great Divide."
The play is a telling rehearsal of the work
of Mr. Miller said:
"The actor critic of New York
the night of that city as a pro-
ducer. By that I mean Alan
the ephemeral, slipshod,
group that ridicules the seri-
ousness there is no fun to be made
of a show that is already funny.
I do not condemn intel-
ligent men like Towse,
and De Foe. But I do damn
the light of the so-called influence
of the movement inaugurated
by Alan Dale. These men
under the altar of art. They
under the great cap of self-
denial their minds are mildewed."
The musical show of the Los
Angeles Athletic Club will not only
be a successful amusement feature,
but it is one of the leading amateur
events of the whole season is
being by those who have been
the rehearsal.

COMPANY
—Broadway

J.W. Robinson Company
BOSTON DRY GOODS STORE
SO. BROADWAY 235-237-239 SO. HILL ST. 234-244

Broad variety of embroidered linen suit patterns in solid colors and white, and colored figures on white—distinctly new and absolutely exclusive—\$11.50 to \$15 a pattern.

Oriental Rugs
At Half Actual Value

Away last spring, when Turkish merchants were so hard up for ready money that a spot-cash buyer could have things pretty much his own way, we bought close to a thousand rugs at half their real worth. The saving is yours. Several hundred of the smaller ones have been divided into seven lots to sell at \$3, \$5, \$8, \$10, \$12.50, \$15 and \$17.50.

The average size of the \$5 rugs is 2½x3 ft.
The \$8 rugs 3 to 4 feet wide by 3½ to 4½ ft. long.
The \$10 rugs 3 to 4 feet wide by 3½ to 5 feet long.
The \$12.50 rugs about 3½x5 ft.
The \$15.00 rugs about 3½x5½ ft.
The \$17.50 rugs about 4x6 feet.
(Third Floor.)

Laces Under Half
10c to 15c cotton torchon lace and insertions at five cents a yd.
15c to 25c Point de Paris lace and insertions at 8½c a yard.
(Main Floor, under Skylight.)

Wash Goods Specials
For Friday and Saturday

These reductions are for tomorrow and Saturday only—on Monday the higher prices quoted here will again be in force.

36-inch India linen—regular 40c value—27½c yd
40-inch India lawn of the 20c quality at 12½c yd.
36-inch Irish dress linen of medium weight at 25c; regularly 35c and an exceptional value at that price, too.
42-inch English longcloth of the 22½c quality to be sold in 12-yard lengths for \$2.25.
28-inch Repp for skirts and dresses at 15c a yard; regularly 20c.

"Royal Worcester" Corsets
\$1 to \$3

This widely-famous corset is here in every new model. And they will be fitted by expert corsetiers, not novices.
(Main Floor, rear of Annex.)

Scotch Zephyr Gingham 25c Yard

Never have we had in stock such a variety of high-grade gingham as we are showing this spring:
In a Broadway window appears a showing of the new Scotch Zephyr gingham, in plain colors, stripes, plaids, bars, etc., over two hundred different styles, no two alike; at twenty-five cents a yard.

\$1.50 Silk Hose 75c Pair

Women who like to wear silken hose, but feel that they cannot always afford to buy them, will appreciate these savings on broken lines:
Light blue and white (only) silk hose, regularly \$1.50, are specially priced, to close out the line, at .75c
Navy, gray, red, pink, light blue, black and white silk hose, regularly \$1.50, are now \$1.00

A Sale of Brushes

Brushes of extra good bristle, with solid backs; qualities that will give splendid service, reduced now, just because we don't intend to carry these particular styles longer in stock:
A line of extra good fifty-cent brushes on sale at .35c
Fine brushes worth between \$1.50 and \$2, now \$1.25
Brushes of the quality sold regularly at \$2.25 to \$3.50 \$2.00

Spring Lines of Raincoats and Cravenettes Here

Hair Accessories Specially Priced

If everybody could know the extraordinary care we used in selecting these hair accessories, we should do the largest business in hair goods of any store in town. Only the finest qualities are permitted to enter our stock, no matter what the price:
Straight switches in all colors, and gray; made of first quality hair, and regularly \$6, we shall sell at \$4.00.
Qualities regularly \$10.00 and \$12.00 on special sale at \$7.50.
Rolls, nets, Billie Burkes, groups of puffs, 4, 6 and 8—and other hair goods always in stock. We make to order puffs, switches, etc., from your own combings, at reasonable prices; guaranteeing all work.

Gloves For Graduates

Graduation is the thing uppermost in the minds of many girls and mothers of girls just now; here are the gloves that are necessary, at attractive prices:
16-button white silk gloves, \$1; others at \$1.50.
12-button white suede gloves, Perrin's best \$3.25 grade; full 20 inches long; all sizes, fitted and accompanied with our usual guarantee, for \$2.50
Short white silk gloves at 50c, 75c and \$1.00 a pair.

Spring Woolen Goods

So many new fabrics and charming colorings in wool materials that it is a bit difficult to make choice this spring. We've selected a number of the colors that have proved favorites, and will make them up to your measure at very attractive prices:
Blue-gray and green-gray suitings, made into stylish tailor suits for \$40 and \$45, from newest patterns. These are shown in a Broadway window, in the piece.
Panamas and serges, showing pretty stripes in subdued contrasting shades; regularly \$1.50, we bought to sell at \$1.00.
We make skirts to measure, from goods bought here, at a cost of only \$2.50 for the making. An extra charge of 75c is made for belts, bindings, sponging and finishing cloth.
Fitting and Order rooms are on the First Floor, adjoining the Dress Goods Section.

New Guaranteed Petticoats \$5.00

Silk skirts have passed the experimental stage; nowadays one may step into a shop and select a handsome style, and pay only five dollars for it, and have the absolute assurance that if it does not wear satisfactory for three months, it may be returned, and a new one will be given in its place without charge.
New lines of the famous S. H. & M. guaranteed silk petticoats have just been placed in stock, in all colors; fully guaranteed, and only five dollars.

PRODUCTION IS GROWING.

Associated General Manager
on the Outlook.

Field West of City One of
the Greatest.

Standard Freely Makes Its
Logs Public.

"Last year the daily production of oil in California increased 24,000 barrels over the previous year, making a daily total of 143,000 barrels," said W. B. Porter, general manager of the Associated Oil Company yesterday. "This year it will grow still more. The increase was quite general last year, every field showing it, but old Kern River did the best. In the south, people asserted that it was dead. The Associated has not developed very extensively in Kern River, as we have no need for it. We have all our lines protected, and the supply we can buy and produce from our present wells, and from other fields, is ample. We have big acreage all along the west edge, where we have never drilled. There is a large part of the Kern & Whittier, the Chicago Crude, Jacinto, and a lot of smaller leases. We have never drilled on the Kern, which is right in the center of the field. Kern River is good for years to come. But west of your city you have one of the greatest oil fields in California, and almost nothing is said about it. We have seven miles and more of territory there, and wells that are uncultivated. We consider this among our very best territory."

Mr. Porter authorized a denial of the statement published locally that the Associated has obtained, or is seeking, any trade in South America or at Panama. The company did send its secretary and assistant general manager, O. Scribner, to South America and to Europe to canvass the market, some years ago, but did not take any contracts, and has since kept entirely out of that field. It does not care to enter upon competition there. Mr. Porter is decidedly reticent as to when the Associated will pay a dividend.

As to new lands Mr. Porter says the Associated is acquiring them all the time. It has some near the Los Angeles strike, in the Monterey-San Benito field, but he has no information from there except the press reports.

Standard Posts Logs.

What the Legislature is asked to compel others to do the standard does of its own will in the field. The drilling rig a complete log of the work done is posted for public inspection on the outside of the derrick. The information is likely to prove invaluable to operators and be the means of protecting wells from fraud and other troubles. None of the other companies have done this, so far as known. Assemblyman Odum's bill to enforce the case of abandoned wells provides that logs must be filed with the County Recorder for public record. In lieu of such a law, the standard is doing the best thing possible. The sight of the logs displayed on all midway derricks has caused lively comment among oil men.

While secretive about some lines, the standard has been extremely liberal in giving out certain kinds of information. Where it is the principal or only buyer, the exact figures of oil received from producers and shipped by pipe are made public day by day, and published. The record is by day, and the standard is not averse to making reports in most cases. The State has made reports, even annually, but the data is more complete than here. In Oklahoma and Kansas two independent companies handle fair proportion of the production. They refuse to follow the standard's example, and there is a difference of 2,000,000 barrels in the estimates of the output in Texas. The standard is barred, and only estimates are obtainable. In California, the standard's proportion of business is small, and has never been made public, probably because it would form no criterion of the whole.

Mexican Oil Fight.

Clay Arthur Pierce, president of the Waters-Pierce Oil Company, is in Mexico City, and Sir Westman Pearson, head of S. Pearson & Son, is expected there from London shortly. This is taken to mean a conference to divide territory and end the trade war in refined oil products which has sent gasoline and kerosene prices tumbling. Such a conference was held in London some months ago and an agreement was practically reached, when, for some reason, Pearson broke off negotiations and embarked in the retail business, putting agents into every important center in Mexico. In many places the Waters-Pierce tank men were induced to take over the business with the newcomers and work with the benefit of years of training and knowledge. This has done much to train relations.

While the Waters-Pierce has yet no production in Mexico of its own, it is not dependent upon imports, necessarily, as there is an immense supply around Tampico, on the Mexican Gulf, and Huasteca lands from which it can undoubtedly buy on the same terms as any one else. In fact, recently was from these wells. If an agreement is not reached further cuts are expected.

Petroleum Odds and Ends.

The Traders, Madero and Nore, the three McQuigs and Wallace companies operating at Coalinga, are moving their principal offices from the Laughlin building, this city, to their lands at Coalinga to avoid the city franchise tax.

The Muscatine, on Section 1, at Sunset, has struck the top sand at 100 feet and is showing well.

The West Side Oil Company is preparing to drill four wells on its eight acres on 25, at Midway.

The Fullerton Oil Company has two strings working near its last gusher, one down 1,600 feet, the other 2,400 feet. The spouter is flowing about 260 barrels daily, of 20 gravity.

The heavy rains in the oil fields have caused much trouble with earthen reservoirs. The Associated is reported to have lost 3,000 barrels at McKittrick. Parties, whose names are not made public, are said to be after the Monarch property at McKittrick. The owners demand \$50,000 and the purchasers are said to be agreeable, but there is a dispute over terms.

SERVICES AT SAWTELLE.

Several members of the Y.M.C.A., including C. L. Jackson, Dr. C. E. Healy, will conduct services tonight at the Union Mission in Sawtelle for the benefit of the veterans.

DIFFICULT TO BREATHE

Relief Overnight by Latest Scientific Discovery.

In spite of the fact that the majority of asthma sufferers are inclined to regard the belief that asthma is incurable, the statement is made without qualification that the only permanent cure for this distressing disease is the celebrated specific, ascatoc, dispensed since its discovery, a short time ago, by the Austrian Laboratory. Chronic cases of asthma in all parts of the country have been permanently cured by this wonderful preparation, which is taken by the patient in seven-day doses at a time, without necessitating a change of climate, which is foolishly supposed to be necessary.

The demand for ascatoc in Los Angeles has caused the directors of the Laboratory to supply the Owl Drug Co. with a quantity of the preparation—a 10-cent size for mild cases, and the 25-cent size, sufficient for one month's treatment, and which will cure chronic cases with a rapidity that will simply astound the patient.

The Austrian Laboratory, 22 West 25th street, New York City, will send free an experimental treatment to all those who write for it.

MEMORY GONE.

CANNOT TELL
HER OWN NAME.

GIRL MAY BE LONG MISSING MISS
TILLY ASEL.

Well Dressed and With Plenty of Money Young Woman Applies for Lodging at Sisters' Hospital—Unable to Give Any Account of Herself or Family.

Unable to remember her name or anything about herself, a well-dressed girl last night, applied at the home of Mrs. Lucy Sullivan, No. 1241 South Hope street, for lodgings.

It is possible that the young woman is Tilly ASEL, daughter of Peter ASEL of No. 212 Pasadena avenue, South Pasadena, who has been missing for a month or more.

The ASEL girl had been troubled with an affliction of the eyes which made it difficult for her to see. The girl taken into the Sullivan home last night was similarly afflicted, and kept her hand over her eyes as though the light pained her.

Mrs. Sullivan's lodger is about 5 feet 6 inches in height and of medium weight. Her clothes are neat and of good quality, and she apparently has had a fair education. She is exceedingly pale, as though she had recently recovered from a severe illness.

The young woman first appeared at the Sisters' Hospital yesterday afternoon. She was sent to a convent on South Hope street and waited there for two hours before the superior. She was told that the convent was crowded, but that she could secure a room at the Sisters' Home. She then went to the Sullivan home, arriving there at 6:30 o'clock.

She was able to tell of her visit to the convent, and remembered the number of the home to which she had been directed, but further than that she could not say. Now, it is said she did not know her own name, and she could remember nothing of her parents or home.

Mrs. Sullivan will take the case up with the police this morning in the hope of securing some clue to the girl's parents. She is evidently a particular friend of mine. I used to buy hardware from him twenty years ago. I've known him for a score of years and he's been true blue all the time. He's not anything like a crook, he's a good fellow, and he's always treated me right, and I'm boosting for Los Angeles. I'm going to boost a little for him.

Ferry Weidner, banker: Put me down as a booster. I'm mostly sympathetic with the Booster Club movement and will do all I can for it. W. H. Brown, salesman: I'll do just what I can. I like it. I do just what I can. I like it. I do just what I can. I like it.

Shy, I wouldn't have minded being president of that club. I think the president's job is ideal. Just making people look happy. Now, while we are talking about this business let me say just a word about the city. I'm a booster for Los Angeles. I'm going to boost a little for him.

WOMEN'S CLUBS.

Afternoon of Art.

A brilliant programme was given yesterday afternoon under the direction of the art section of the Cosmos Club, art being considered in broad terms, including literature and music.

An exquisite little story, "The Religion," by Antony Anderson, as read by the author, proved to be not only literature, but life itself, and was greatly appreciated by the club members.

Mrs. Karline Anderson MacLafferty, a poetic figure in Norwegian costume, sang the Scandinavian folk songs of Grief and other poems, with words by Bjornstjerne Bjornson and others. Her interpretations were finished and delicate as a dream, full of the minor plaints of the somber northern temperament. Among the selections rendered were: "Princessen," "Over de Røde Fjælde," and that beautiful "Ola, Min Egen Ola." Miss Sterrett of the Los Angeles High School gave a short play, "The Soul of Art," which was very interesting. She told of the great sculptor, Auguste Rodin, whose studio she visited in Paris as a very special privilege. "In that studio," she said, "one could feel the vibration of thought, in other words, the soul of the sculptor's creations."

Prof. Judson of the College of Fine Arts in Garvanna followed with an instructive talk on pottery, and some beautiful specimens from his own school were exhibited. A young musician, Frank Major, contributed an artistic piano number to the programme.

Mrs. H. H. Housh was the guest of honor, and made appreciative remarks about the spirit of the afternoon.

The Art Committee of the club is composed of the following members: Mmes. J. C. Stockwell, George W. Jordan, R. E. Williams, Howard Wallace and Miss Helen L. Meigs.

Cliff Dwellings Association.

On Tuesday afternoon, Mrs. J. P. Curtis entertained the members of the Cliff Dwellings Association at her new Long Beach bungalow. Mrs. Riddle, the recent, presided, and gave an interesting and vivid account of her recent tour of the United States, Jamaica and Panama. While in New York Mrs. Riddle was invited to speak before the New York Chapter of the Cliff Dwellers Association.

Interesting photographs taken along the journey were displayed, adding much to the realism of her description. After Mrs. Riddle's talk several appropriate Spanish selections were enjoyed by the guests.

F. F. Taylor, mining stock broker, received news of the death of his brother, John F. Taylor, at Globe, Ariz., yesterday, and left on the first train for the Territory. He will remain away until Monday morning.

FLOODS WON'T BOTHER THEM.

When the work of the County Highway Commission is completed, rains such as have prevailed in this section during the past ten days, will be of no appreciable effect upon the county roads. The floods around Stockton did not damage the government road, but there is an object lesson to future road builders. Deep foundations, filled with concrete, and the use of the Monarch property at McKittrick. The owners demand \$50,000 and the purchasers are said to be agreeable, but there is a dispute over terms.

SERVICES AT SAWTELLE.

Several members of the Y.M.C.A., including C. L. Jackson, Dr. C. E. Healy, will conduct services tonight at the Union Mission in Sawtelle for the benefit of the veterans.

Big Annual SHOE SALE

Sweeping Reductions Throughout Entire Stock Prices Ridiculously Low In Many Instances

The response we are meeting in this great sale proves the wonderful value of always dealing squarely with the public. The people know, that even under ordinary conditions, we give the biggest shoe values in the city—and that when we announce a clearance sale means something worth while.

We are now establishing a new record for unprecedented value giving in shoes. We will prosecute the sale vigorously because anxious to make an early display of our new spring shoes.

This is your chance to pick up at cut prices many of the best shoes we have ever sold. The styles are all new and such as will be popular during the coming season. But they are short lines and must be closed out in a hurry.

For Women

Regular \$5.00 and \$6.00 Shoes now... \$3.95
Regular \$4.00 and \$5.00 Shoes now... \$3.15
Regular \$3.50 and \$4.00 Shoes now... \$2.65
Regular \$3.00 and \$3.50 Shoes now... \$1.95

For Men

What Are They? Electropodes are two metallic insulated poles. One is copper, the other zinc—similar to the positive and negative poles of a galvanic battery.

How Do They Act? Electropodes, when worn in the heels of the shoes, make a battery of the body—the nerves become the connecting wires, over which a mild and soothing current of electricity courses the entire day, building up the whole system.

FACTS, FEATURES AND FIGURES FOR WOMEN

BY MISS SYDNEY FORD.

have learned the art of dining in the French and are not permitted to announce to her guests as they enter the dining-room. The French minister was so shocked that he withdrew the resulting confusion.

The French tell us that light is the best number for a small dinner party. For a larger party, the number of the conversation can be both personal and personal and where the subject is impossible. Perfect conversation is that gracious kindness which prompts a hostess to crumple a daily under her finger bowl.

One of the most graceful of women saw her guest, a man of talent, not training, do the same thing. One of the most graceful of women saw her guest, a man of talent, not training, do the same thing.

And that reminds me of an anecdote told of a great scientist, who was invited to a formal dinner to meet some of the most brilliant of the world's great minds. He was seated at a table with two guests, a man and a woman, who were both of the highest caliber.

They became so engrossed in conversation that they lost all sense of time and place. When the dessert was brought, the hostess, who was a woman of the highest caliber, noticed that the guests had not eaten. She said to them: "You have been so engrossed in conversation that you have forgotten to eat."

They looked at each other and then at the hostess. They had indeed forgotten to eat. They had been so engrossed in conversation that they had forgotten to eat. They had been so engrossed in conversation that they had forgotten to eat.

They looked at each other and then at the hostess. They had indeed forgotten to eat. They had been so engrossed in conversation that they had forgotten to eat. They had been so engrossed in conversation that they had forgotten to eat.

They looked at each other and then at the hostess. They had indeed forgotten to eat. They had been so engrossed in conversation that they had forgotten to eat. They had been so engrossed in conversation that they had forgotten to eat.

They looked at each other and then at the hostess. They had indeed forgotten to eat. They had been so engrossed in conversation that they had forgotten to eat. They had been so engrossed in conversation that they had forgotten to eat.

They looked at each other and then at the hostess. They had indeed forgotten to eat. They had been so engrossed in conversation that they had forgotten to eat. They had been so engrossed in conversation that they had forgotten to eat.

FACTS, FEATURES AND FACIES FOR WOMEN

BY MISS SYDNEY FORD.

A French hostess, the wife of an ambassador to Spain, once said: "You must never be late to a dinner."

She has learned the art of dining in the French and are not permitted to be late to a dinner. The French hostess who was so indiscreet as to be late to her guests at a dinner, is now a laughing stock to a State.

"Now, ladies and gentlemen," she said, "I am late to a dinner."

She was shocked that she withdrew from the dinner.

The French hostess who is late to a dinner is a laughing stock to a State.

She is late to a dinner. She is late to a dinner. She is late to a dinner.

encouragement possible to assist in holding our heads high.

News of the Shops.

I noticed a new fad in glove buttons on some white kids displayed in a Broadway window. The buttons looked like round pearl beads with no apparent shank.

Gold braided bracelets, neck chains and watch fobs are the latest fads in the fine spun Etrescan gold.

Choice perfumes of the Houdnut and Lundberg brand are offered at half price in a recently opened drug store on Broadway.

At a department store which is selling out at cost I saw some fine shirtwaist and shirt boxes in rattan. They were priced at \$15 and were made with a tray and as large as the ordinary rattan trunk which comes at a much higher figure.

Hope for the Middle-Aged.

Middle-aged women especially must guard against incorrect posture for, in their case, it is simply fatal. The bent so common in the chest and waist line make the shoulders round and bring the abdomen into prominence. When we see that profile we

know that middle age has arrived. Activities of the chest overcome the as no artificial aids can do. When it is forward and up, the other parts of the body assume the correct position and a woman looks years younger. Being well groomed, well poised, and well dressed, the middle-aged woman has a distinction and a personality which eclipses that of the young girl by the added charm and dignity which mature womanhood and knowledge of the world brings. It is the middle-aged woman, who has inspired the lives of great men, changed the destiny of nations and the history of the world. So cheer up, women on the steady side of forty, the best part of life may be before you.

Fashions and Fads.

All parsons have long handles. It is undoubtedly a year of silks. Clothing gowns are still the rage. Velvetene toques are in great demand.

Many gumpies are being made without collars.

Foulards and pongees are the favorite fabrics.

Taffeta silk is the ruling favorite in sunshades.

Satin violets, in all shades, will figure on new hats.

There is no end of border effects among the new cottons.

Bodices are longer in front, but as high as ever at the back.

Many of the richest of the evening gowns are trimmed with

A stunning new linen three-piece suit is of bold rose tone.

Lilacs, violets and roses promise to be favorite hat flowers.

Flesh-colored slips are worn under the new transparent blouses.

The jumper frock is back again among the ready-to-wear models.

Much of the braiding now seen is in distinctly medieval pattern.

For Women—Lydia E. Pinkham's Vegetable Compound

Noah, Ky. — "I was passing through the Change of Life and suffered from headaches, nervous prostration, and hemorrhages."

"Lydia E. Pinkham's Vegetable Compound" cured me, and I feel that I can never praise it enough."

"I feel much younger than I really am."

"Lydia E. Pinkham's Vegetable Compound" is the most successful remedy for all kinds of female troubles, and I feel that I can never praise it enough."

"The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain."

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—irregularity, displacement, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

FOR PUBLIC COMFORT.

Los Angeles Colored Physician Appointed Member of Presidential Inauguration Commission.

Dr. R. S. Outlaw, a well-known colored physician of this city, formerly an examiner for the United States Pension Bureau, has been honored with an appointment as chairman of an auxiliary committee on "public comfort" in connection with the inauguration ceremonies on March 4, in Washington.

On the account of the tremendous congestion of visitors in Washington on that date, the government appoints a Public Comfort Commission to assist them in securing accommodations. This commission works through auxiliary committees appointed in every section of the country.

Los Angeles people intending to witness the inauguration and desiring accommodations, should communicate with Dr. Outlaw, No. 124 Wilson Block, or with any of the following members of the committee he has appointed at the request of the General Committee: Dr. A. C. Garrett, No. 257 Wilson building; R. C. Owens, No. 1227 West Tenth street; J. L. Holt, No. 1229 Alhambra street; J. W. Palmer, No. 400 San Fernando building; J. D. Blair, No. 128 North Main street; G. W. Wickliffe, No. 208 Thorpe building; Eugene Walker, No. 625 Broadway; Main street; C. S. Darden, No. 420 Bryson building; Dr. W. R. Johnston, No. 119 West Forty-ninth street; J. M. Alexander, No. 328 Wall street.

CAUGHT WITH THE GOODS.

Howard Searies Charged With Stealing in \$235 Worth of Former Employers.

Howard Searies was arrested yesterday afternoon by Detectives Ritch and Roberts in his apartments at Third street and Grand avenue on the charge of burglarizing the Butler-Schutze millinery store, No. 238 1/2 South Broadway, last August, taking ostrich feathers, ribbons and other millinery appurtenances to the value of \$235. In the stolen property was recovered in Searies' rooms. Searies was formerly an employe of the Butler-Schutze company, but was discharged last March. The store was robbed on the night of August 8. Suspicion at once fell on Searies, as the doors were opened by a key and the proprietors declared the job an "inside one."

Searies was believed to have secured keys to the building. However, it was not until yesterday that detectives could secure evidence which connected him with the robbery. A search of his rooms disclosed the stolen goods. He is in Central Police Station.

ELKS FLY THE KITE.

Two Hundred Visitors from Utah Make Trip and Are Entertained.

Owing to the threatening weather yesterday only 200 of the Salt Lake City Elks made the trip around the kite-shaded track. A. J. Davis, the Elks' ruler, and A. W. Raybould, the secretary of this organization, were among the party on the Santa Fe's picturesque run.

The San Bernardino Elks awaited the Utah contingent there in carriages and automobiles and drove through the city and the surrounding country to show the visitors the attractions which that vicinity offers. At Riverside, the antlered guests were treated in much the same manner. A band waited upon them at the depot and escorted them to the City Hall and Chamber of Commerce, where Riverside orators dwelt at length on the advantages of living in that section, and gave the Utah people the keys to the city.

There were several other stops along the route, and when the Elks returned in the evening they were treated. This did not deter a number of them from attending a theater party at the Majestic. Entertainment for the male members of the party was also offered at the clubrooms of the local lodge. KERN COUNTY RURAL ROUTES.

BOWLES, Feb. 10.—The Postoffice Department today ordered established here on May 1 a rural route that will be twenty miles long and will serve eighty-eight families.

An additional route will be established at Kernman, in this county, on the same date. It will be twenty-three miles long and will serve 167 families.

According to Willis L. Moore, Chief of the United States Weather Bureau, Americans owe their spirit and enterprise to the ever-changing weather conditions in this country. Mr. Moore made this assertion while delivering a lecture on "Storms and Weather Forecasting," at Columbia University.

shipped into the valley from California and guano from bat-infested caves in the foothills is finding ready sale at \$50 a ton. Clover and cow peas are also being planted in the orchards, to add to the nitrogenous matter in which the soil heretofore is deficient.

A row has started over the new High School building at Mesa, which is declared by a number of Mesa residents

to have been very poorly constructed, and that the architect and John Redmond of Los Angeles is the contractor, represented by N. C. Kintner. Kintner has admitted that he will pay expenses of all investigation himself. It is understood that Superintendent Knipe has refused to allow an investigation and has placed large "no-trespassing" signs around the uncompleted structure. It is alleged that the walls are cracking,

LOCAL RAILROADS.

FIREIGHT MEN TO VISIT NEVADA.

PLAN HURRICANE TRIP THROUGH THE MINING CAMPS.

Santa Fe Officials Will Be the Guests of the Tonopah and Tidewater Road on Joint-New Passenger Tariffs to Go Into Effect Next Month.

The Tonopah and Tidewater Railroad has finished arrangements to run a personally conducted excursion carrying Santa Fe and T. & T. boosters on a hurricane trip through the Nevada mining camps. The party will leave this city in a special sleeper the 25th inst., and return on the 22nd inst. Another section with a San Francisco delegation will join the party at Reno on the 26th. The members of the party will be freight employees of the Santa Fe and T. & T. only. They will be the guests of the management of the last-named road.

Goldfield, Bullfrog, Pioneer, Springdale and other mining camps will be visited under the guidance of mining men of each.

The invited guests from the Santa Fe are: H. H. Francis, general agent, C. K. Adams, chief clerk to the general agent, W. H. Davidson, industrial agent, J. R. Hanna, traveling freight agent, C. C. Payne, traveling freight agent, T. P. Chambers, contracting freight agent, T. D. Conway, contracting freight agent, J. H. Glasgow, contracting freight agent, C. H. Housh, contracting freight agent, Los Angeles; W. R. Dowler, general agent, San Bernardino; E. B. Stuart, agent, San Diego; C. F. Corral, contracting freight agent, Oakland; W. G. Dosier, Jr., agent, Stockton; L. H. Hancy, traveling agent, Fresno; O. M. Kellogg, contracting agent, Oakland; L. McPhedra, traveling agent, Fresno; H. P. McDonald, traveling agent, San Francisco; John L. Blair, traveling freight agent, Sacramento; J. J. Warren, general agent, Oakland; H. B. Borne, general agent, San Jose; R. W. Hobart, general agent, Fresno; H. Hayden, industrial agent, H. P. Aneval, assistant general freight agent; N. W. Hall, chief contracting agent; F. A. Bell, contracting agent; E. E. Jones, contracting agent; L. S. Beck, contracting agent; L. M. Altman, contracting agent; F. J. Harrington, contracting agent; and R. A. Gollindo, contracting agent. The last line is from San Francisco.

NEW PASSENGER TARIFFS.

The new joint passenger tariffs, which will go into effect March 15, are being received by passenger men in this city. The rates to and from various points remain unchanged. The new tariff simply includes a few new destinations, and revising and taking in all of the supplements already filed. It shows the lines connecting in the rates and time limit of tickets, which are about the only new features.

GYPSUM RATES REDUCED.

The Tonopah and Tidewater has issued a tariff reducing the rate on crude gypsum from \$2 to \$1.50 between Tonopah and Los Angeles. Large deposits exist at the former point and shipments are increasing steadily.

HIO HORN BASIN.

The Burlington Route has issued a comprehensive folder descriptive of the newly opened country in the Big Horn Basin. It contains information regarding farming and general conditions, of value to prospective settlers. Copies of the folder can be had on application at the Burlington offices here.

Railroad Notes.

A. J. Farling, president of the Chicago, Northwestern and St. Paul, is passing a few weeks in Pasadena and the city.

J. J. Mitchell, a prominent Chicago banker and director of several eastern railroads, is expected to reach the city today for a short visit.

Fred Wild, general freight agent of the Denver and Rio Grande, will arrive here from Denver today.

C. E. Bradley, assistant depot passenger agent of the Burlington at Chicago, is staying in the city.

The new advertising matter illustrative of Southern California which the Rock Island is putting out in the East and Middle West, is distinctive and attractive. Copies are distributed from the local offices.

PERSONAL.

J. P. Sweeney, a mining man from Goldfield, Nev., is at the Alexandria.

D. J. Johnson, a steel manufacturer of Pittsburgh, arrived at the Van Nuys yesterday.

E. R. Stapleton, a large cement manufacturer of Kansas City, is at the Alexandria.

Mr. and Mrs. H. Patterson Fraser of Johannesburg, South Africa, registered yesterday at the Alexandria.

Wardie Bathum and P. G. Dennison, mining men from Missoula, Mont., are guests at the Hollenbeck.

H. W. Hineck, an official of the American Electric Company, Chicago, is a guest at the Hayward.

Mr. and Mrs. George L. Dickson, and son of Tacoma, tourists, are at the Lankershim.

J. H. Packard, a large land owner of Ensenada, Mex., arrived yesterday at the Van Nuys.

Mr. and Mrs. O. J. Smith of Reno, Nev., are guests at the Van Nuys. Mr. Smith is a banker.

O. J. Mulford, a merchant of Detroit, accompanied by his wife, arrived yesterday at the Westminister.

H. R. Zingst of Hart, and W. S. Johnson of Tonopah, who have mining interests in Nevada, are at the Westminister.

Mr. and Mrs. E. T. Taylor of Glenwood, Colo., who will make a tour of Mexico during the next two months, registered at the Hollenbeck yesterday.

Mr. and Mrs. W. H. Hatch and son of Winnipeg, Can., registered at the Angelus yesterday. Mr. Hatch is a large land owner.

Mr. and Mrs. H. M. Rollins and Mr. and Mrs. D. E. Parker of Des Moines, Iowa, tourists, are guests at the Angelus.

Mr. Joseph Hitchcock of Rochester, N. Y., are at the Lankershim. Mr. Hitchcock is a shoe manufacturer.

Jules Gerstle, a manufacturer of suspenders and leather goods, of New York, registered yesterday at the Alexandria.

T. F. Meyer, a railroad official from Galveston, Tex., arrived yesterday at the Lankershim. Mr. Meyer plans to make his permanent home in Los Angeles.

Charles M. Dow and son, Howard Dow, of Jamestown, N. Y., arrived at the Alexandria yesterday. Mr. Dow is president of a bank. They are en route to Japan on a pleasure tour.

Dr. and Mrs. E. H. Hall of New York, who are connected with the Presbyterian Board of Foreign Missions, are at the Hayward. They are en route to Japan.

Imported Direct "Cinzano" TURIN, ITALY

The opinion of a connoisseur

"The Finest of Italian Vermouth"

In foreign countries Vermouth is generally regarded as "good for the nerves", while we use it more extensively in mixing with other liquors.

Very mild and appetizing in itself if chilled and drank as a cocktail.

In large bottles, 65c By the case . . . \$7

CHILL LEADS TO DEATH.

Fire Department Engineer, Overheated in Helping Extricate Apparatus from Mud, Soon Passes Out.

The death of Engineer Harry E. Buckingham of the fire department, on Tuesday, at his home, No. 1022 Monhawk avenue, was the result of exposure while on his way to a fire January 21.

The engine and hose wagon stuck in the mud and Buckingham worked until he became overheated helping to extricate the apparatus. All four horses were hitched to the hose wagon.

His death was announced by the coroner's office today.

JERKED TO PIT BY COAT.

Garment Catches in Elevator Mechanism and Wearer Falls Fifteen Feet to Cellar.

Entangled in the mechanism of an elevator, Erman Kramer, 38 years of age, of No. 212 South Fremont avenue, was dropped fifteen feet from the top of the shaft in the Fay building, Third and Hill streets, yesterday morning.

He sustained a fracture of the skull at the base of the brain, which surgeons at the Receiving Hospital say will result fatally. Despite his injuries, Kramer managed to scream for help after the accident.

The young man lived with his parents, Mr. and Mrs. W. W. Kramer. He reached the Fay building, where he operated an elevator for more than two years, shortly after 8 o'clock yesterday morning.

He jumped into the cage and took it to the top of the shaft and back to try the machinery. When he reached the basement he stepped out to get his stool. As he did so, the skirts of his overcoat became wrapped about the lever of the machinery, and the car shot skyward, jerking him into the shaft. His coat tore loose when he had reached a point fifteen feet above the ground, and when he fell his head struck the cement.

His screams attracted the attention of other employees, who hurried to his assistance, and sent him to the Receiving Hospital. He was later removed to his home.

Preparations are being made for the celebration of Constitution Day in Japan, which is the 11th of this month. The day will be observed as a general holiday and elaborate ceremonies will mark the observance of the occasion.
